Dear Industry Colleagues,

We invite you to attend our 17th annual international conference at the Palais du Pharo in Marseilles, France on December 4-7, 2019.

We had a great conference last year in Las Vegas, Nevada, with many exciting speakers, including a Keynote address by Mark Horowitz PhD (Department of Orthopedics, Yale University). Other plenary lecturers from diverse fields such as Endocrinology, Genomics, Orthopedics, and, of course, Plastic and Reconstructive Surgery, gave us their perspectives on Adipose Regenerative Medicine. Based on each year's continued growth, we fully expect to surpass Las Vegas's high attendance levels in Marseille.

At this year's meeting, we will continue to expand the role of IFATS industry members and colleagues as vital participants in the conference. To that end, the recently convened IFATS Industry Relations Committee will provide guidance and suggestions to the IFATS Program Organizing Committee. IFATS will continue to highlight the best in cutting edge industry technologies, materials, and techniques in exhibitor-oriented panels designed to maximize interaction with academic/clinical members. These industry sponsored sessions will provide a venue for exhibitors to educate the audience about new scientific and technical developments from their unique perspective.

We will again invite leading clinicians and researchers in the fields of adult adipose stem cell research and adipose grafting. This year, under the presidential leadership of Dr. Guy Magalon (France), IFATS panel discussions will focus on international cell therapy advances, practices, clinical translation, and regulations, giving attention to activities ongoing in both human and veterinary regenerative medical applications.

At our basic exhibitor level, we will again offer two members of each team full access to our lectures and presentations and the opportunity to host small private events with conference attendees. As an additional venue for direct interaction with clinicians, we will offer the opportunity for industry sponsors to host our "Ask the Expert" lunch tables. A variation of these sessions was started two years ago and have been received enthusiastically by attendees/registrants. We encourage you to consider participating as either a sponsor or as a mentor. Those companies that elect to support IFATS 2019 as Sponsors will qualify for additional registration badges. Should a company elect to distribute such registration benefits to an affiliated surgeon or investigator, the company's sponsorship will be noted on that attendee's badge. Additionally, IFATS 2019 includes opportunities for its Industry partners to support the meeting and highlight their company's support by sponsoring meals or special events.

IFATS continues to strive to provide its members with an international conference venue that is committed to fostering interactions among researchers, clinicians, and technology companies which will grow our field and expand our reach to other specialties.

We hope that you will provide your support to our educational efforts at IFATS 2019. Please feel free to discuss the IFATS meeting and your specific industry needs with any one of us before or during the meeting. We look forward to seeing you in Marseille!

Sincerely,

The IFATS Industry Relations Committee
